Dear valued patient,

Patient safety and your podiatric needs will always be our top priority. With this in mind, all of our offices will remain **OPEN** to serve the needs of our patients.

At this time, it has been determined by the Pennsylvania Podiatric Medical Association (PPMA) that podiatric care is an **essential service** that Pennsylvanians **are permitted to attend** and is not included in any shutdown order.

Out of an abundance of caution, we have taken additional precautions to ensure the safety of all who enter our offices. Since one of the main symptoms of Coronavirus (COVID-19) is a fever, we will be using infrared thermometers to take our employees temperatures, as well as our patients and any family member or caretakers that may come into our offices. We are also utilizing screening questions related to COVID-19 guided by the Center for Disease Control (CDC). Should anyone present with travel history and or symptoms outlined by the CDC, they will not be brought into the treatment areas and instead will be referred to their primary care physician.

While we have always been diligent in our cleaning practices, following the PA Department of Health and OSHA guidelines, at this time, we are being even more diligent in frequently cleaning all rooms and common areas.

In furtherance of everyone's safety, we kindly ask that you reschedule your appointment if you:

- Have a body temperature greater than 100.4 degrees F, cough or shortness of breath,
- You have been exposed to someone with COVID-19 symptoms,
- Traveled out of the country in the last 30 days.

This is a very unique time but we are here to serve your podiatric needs. We thank you for your patience and understanding.

Sincerely,

Dawn Y. Stein, DPM, CWS  
Owner, Delta Foot and Ankle Centers
